Material

Marri timber, which is native to the far south west region of Western Australia, is renowned for its distinctive gum veins and rich characteristics that make it one of the most exclusive timbers in the world and the perfect timber for creating fine handcrafted furniture. Features such as deep gum veins, knots, pin holes and sap marks all contribute to telling the story of our great Australian landscape. Many of these characteristics are born from withstanding extreme weather conditions from the area such as bushfires, severe storms and prolonged periods of drought, showcasing nature's signature across every piece of timber furniture.

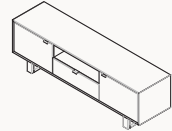

The Marri hardwood used in this product is expertly manufactured into our signature, durable and full-of-character furniture pieces.
